Divest Harvard

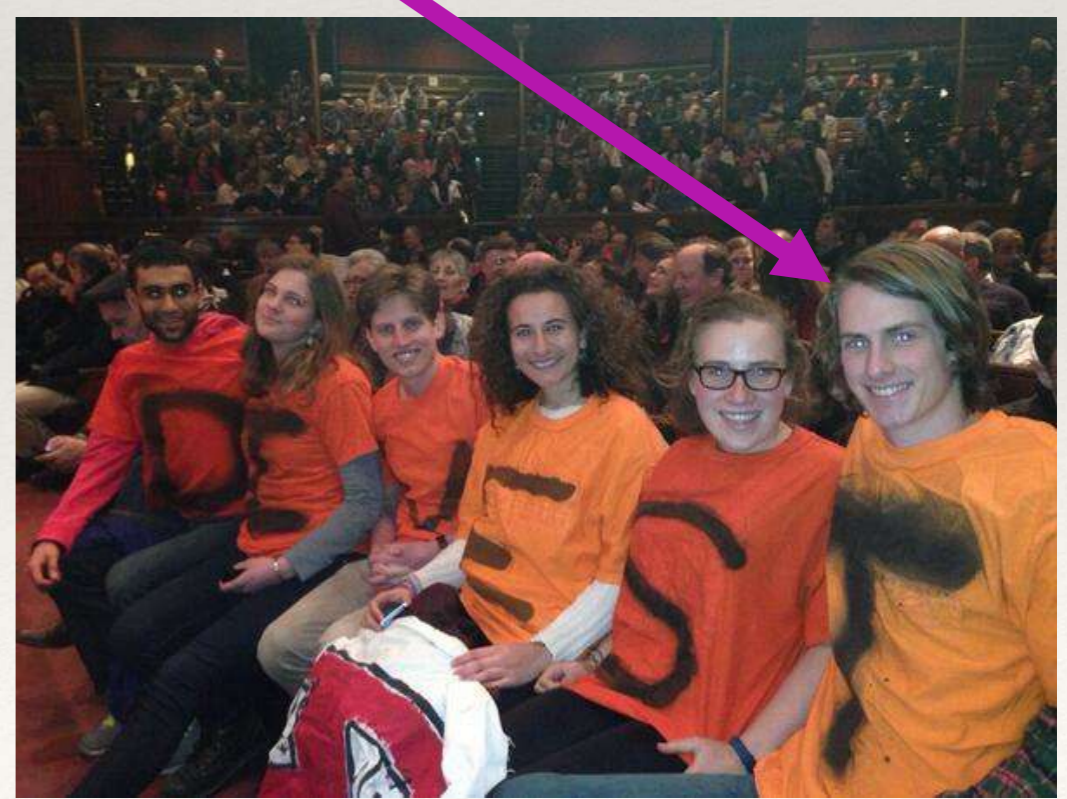

72%
OF HARVARD STUDENTS

**VOTE TO DIVEST FROM
FOSSIL FUELS!**

Canyon

HARVARD TRUSTEES WOULD RATHER
ARREST THEIR OWN STUDENTS
THAN OPENLY DISCUSS
FOSSIL FUEL DIVESTMENT

70,000

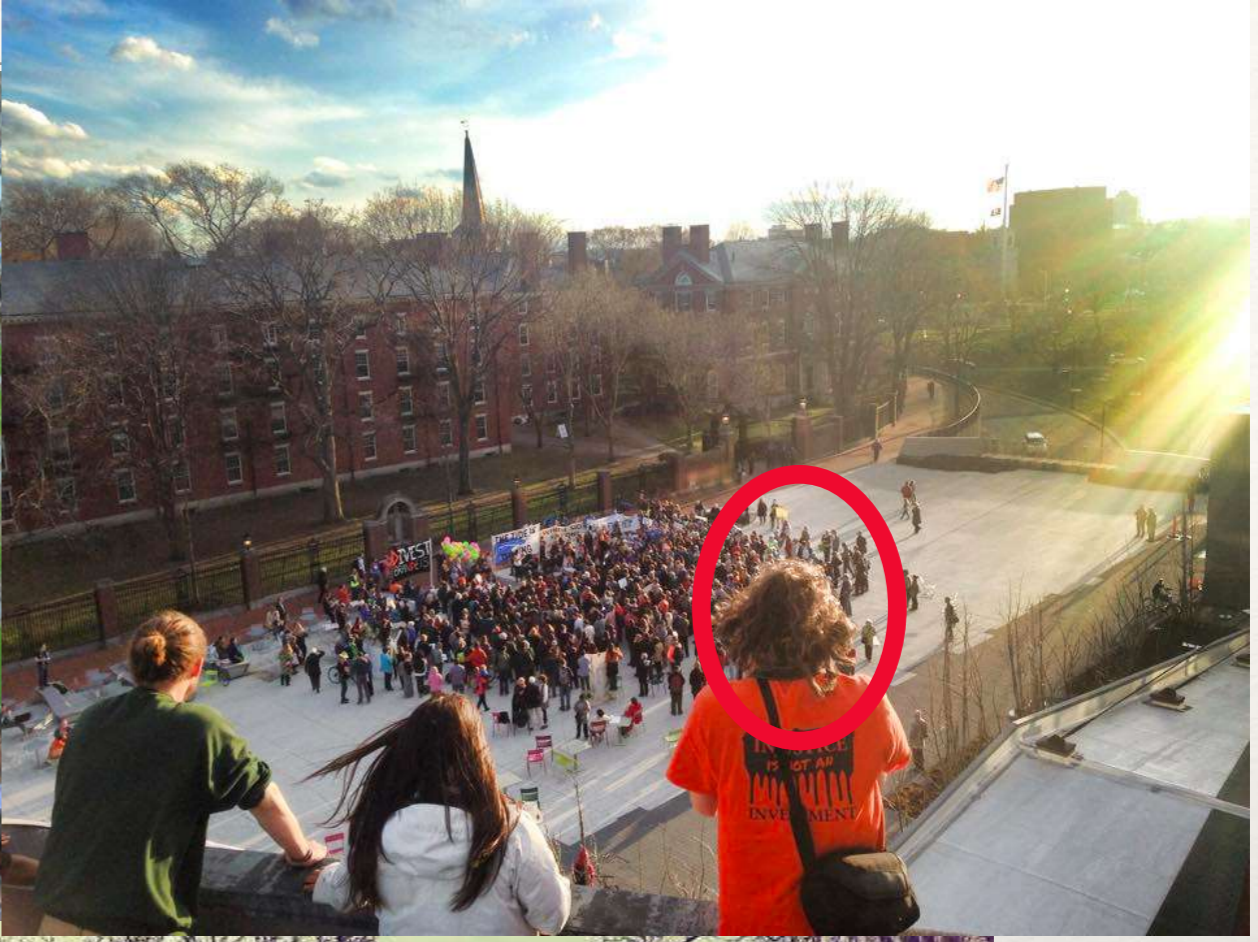

These students just **SUED Harvard** for investing in fossil fuels. Why?

👉👉 Harvard is directly funding an industry incompatible with real climate solutions. This dangerous investment constitutes a violation of its legal responsibilities. 👉👉

HARVARD NOT ONLY REFUSES TO **DIVEST**,
BUT HIRES AN **OIL EXEC** TO RUN ITS
FINANCES - SO STUDENTS BLOCKADE.

The Mobilization Gap

THE Nation.

INVESTIGATING PROGRESS SINCE 1865

CONTEXT

- Democrats lost [968](#) state legislative seats during Obama's presidency, the largest net loss since World War II.
- Look at the map of the 2016 election results. The greatest support for Donald Trump came from small rural towns like ours. From 1999 to 2009, neither party held a significant advantage among rural voters. Today, Republicans have a 16-percentage-point advantage.
- Tom Perez, Democratic National Committee Chair, said in a recent [interview that](#) "you can't door knock in rural America."

District 88

- ❖ -16 percentage point Democratic Performance Index
 - ❖ [Republicans have a 16-percentage-point advantage among rural voters nationwide.]
- ❖ Never been held by a Democrat
- ❖ Chelsea has one of highest property tax rates
- ❖ Lincoln County is most rural county in Maine and oldest county (by age) in the US

Fresh perspectives on old problems

To the editor:

The voters of House District 88 (Chelsea, Jefferson, Whitefield, and part of Nobleboro) have an opportunity to elect a representative to the Maine Legislature who will bring fresh ideas to the pressing issues facing Maine: Chloe Maxmin.

I have met Chloe several times, and have been impressed with her energy and her ability to apply new thinking to complex problems. She is old enough to bring experience and maturity to the job of legislator, and young enough to bring fresh perspectives to old problems.

She will seek the best approaches to improving the vibrancy of local communities by focusing on jobs, education, health care, and transportation. Chloe understands that these are the things we need to address to attract and retain young people, and she has the flexibility to work with other elected officials

Nick Paquet, electrician from Local 1253, stands in support of [#MaineGnd](#). "It's an opportunity to transition to a renewable energy economy and create good paying jobs."

Maine Green New Deal—2.0

SUMMARY

[This amendment replaces the bill. This amendment:

1. Requires construction employers constructing grid scale generation facilities to hire certain percentages of apprentices to work on the construction beginning in 2021;
2. Requires that the Efficiency Maine Trust, in collaboration with the Department of Education, identify and provide incentives for cost-effective electric and natural gas conservation projects in new school construction projects; and
3. Requires the Efficiency Maine Trust to establish, through a competitive solicitation process, a power purchase agreement for solar capacity to be installed on school property when a new school is being constructed.

- ❖ Focused on the District 88's of the world
- ❖ Local
- ❖ Rural
- ❖ Labor-oriented & talking about climate in a new way
- ❖ Using politics to build movements

MAINE'S GREEN NEW DEAL

Thank you!
