

Making high mileage vehicles accessible and affordable

Capstone's [MileageSmart](#) program helps you pay for your next car, which means you'll cut your transportation costs and stretch your monthly budget. Not only can you get up to \$5,000 towards the purchase price, but you'll also be investing in a high-efficiency vehicle that will save you money for years to come.

Up to \$5,000 towards a used green car
25% off any vehicle that gets 40 MPG or more

What vehicles are eligible for the incentive?

Gas-Electric Hybrids
like the Toyota Prius

Electric with Gas Backups
like the Chevy Volt

All Electric
like the Nissan Leaf

There are currently 37 eligible models

Do You Qualify?

- The MileageSmart program is designed to assist Vermonters who are at or below 80% median income, based on household size. Given the COVID pandemic, many of us have experienced changes in our family incomes.
 - To confirm your income eligibility, you may use either your 2019 income statements or your estimated income for the 2020 calendar year. Please note that this program will be audited, so accuracy is important.
