Highest impact thermal measures in EAN Pathways Model

Source: EAN Emissions Reduction Pathways Model, 2021. Note: graph shows cumulative unit counts and is scaled based on unit count growth, not GHG reduction.

Button Up Vermont Goals

- Physically distant and fun activities available statewide to promote weatherization virtually!
- Comprehensive weatherization for homes is a goal, but we are elevating DIY-projects this year too!
- Supporting low income weatherization with community action.

2021 Button Up Season – October!

Outsmart Winter

Weatherizing and using an efficient heat pump system can make your home cozy in no time. You'll reduce your energy bills and your carbon footprint, all while telling old man winter to take a hike.

The cold shouldn't bother you – weatherization is the ultimate winter life hack! Buttoning up your home means that no matter the weather, you'll feel like the smartest one in the room. [Air sealing and insulation](#) gets your home in shape for [efficient heating options](#) like heat pumps.

Updated Website

Weatherization PLUS Heatpumps

- A Weatherization project together with heatpump technology is like peanut butter and jelly- the perfect combination!
- We will have special Weatherization Wednesday dedicated to the topic.

Now what?

1. Sign up to be a Button Up Vermont community!
2. Like and follow the social media Button Up Vermont channels!
3. Connect with your Regional Planning Commission on what you would like the regional event to look like.
4. Have a creative idea we are missing? Let us know!
