Deirdre Holmes, Charlotte Energy Committee and CCRPC Transportation Cmt
- 12:12:23 From Cheryl Hogan to Everyone:
Will this video be on YouTube for reference later?
- 12:13:52 From Sarah Bayer (she/her), VNRC/VECAN to Everyone:
Yes! We will upload the recording to Youtube and post it to the VECAN website. I will send out a follow-up email with links to the recording and resources.

12:14:53 From Cheryl Hogan to Everyone:

thanks!

12:34:38 From Andy Hooper to Everyone:

(acceleration is not speed - kinetic energy is $\frac{1}{2} m * v^2$ - more what you want on the prior slide)

12:36:49 From Cheryl Hogan to Everyone:

Agree about acceleration. Our village has a larger problem with Change In Speed than speed itself.

12:49:52 From Dori Drachman to Everyone:

Yes. It would be good to find out if there are any organizations in NH that fill any of these roles?

12:51:21 From Andy Hooper to Everyone:

As a selectboard member investing in infrastructure that's not usable by all residents all year is tough. I love the traffic calming, and the tradeoff between speed and safety - but winter maintenance and other concerns from public works makes these changes tough. [Sorry if you addressed this, I had to take a call during the presentation]

12:56:11 From Kati Gallagher, VNRC (she/her) to Everyone:

Vital Communities is based in the Upper Valley and works in VT/NH

12:56:51 From Gary Dir/Randolph to Everyone:

Greta, When will this video be available ?

12:57:18 From Greta Hasler (she/her), VNRC/VECAN to Everyone:

Hi Gary - we should have the recording and resources up on YouTube and the website by tomorrow!

13:00:05 From Ann Lawless to Everyone:

Another issue for us in Wheelock. Rte 122 is the state highway. Houses are really close to the road and a concern is keeping the roadway wide enough for 2 car/truck lanes and adding space for bike/pedestrian way might require taking people's front yards. Do you have any examples? Thank you

13:02:57 From Sabina Ernst to Everyone:

can you post best practices for traffic calming - especially in a rural context?

13:05:14 From Maddison Shropshire to Everyone:

Thank you!

13:05:19 From Ann Lawless to Everyone:

Thank you!

13:05:24 From Sam Lash (she/hers), CVRPC to Everyone:

"Gateway" treatments to village centers/more bike/ped focused areas of municipalities seem to be a good fit for some VT municipalities (more rural contexts especially)- some recent examples were also in coordination with VTrans so possible way forward there

13:05:27 From Sam Lash (she/hers), CVRPC to Everyone:

Thank you!
